ARBOCEL® LD Products

Low Dust Formulation Aid

Treated with 1.0%
ARBOCEL® LD

Untreated

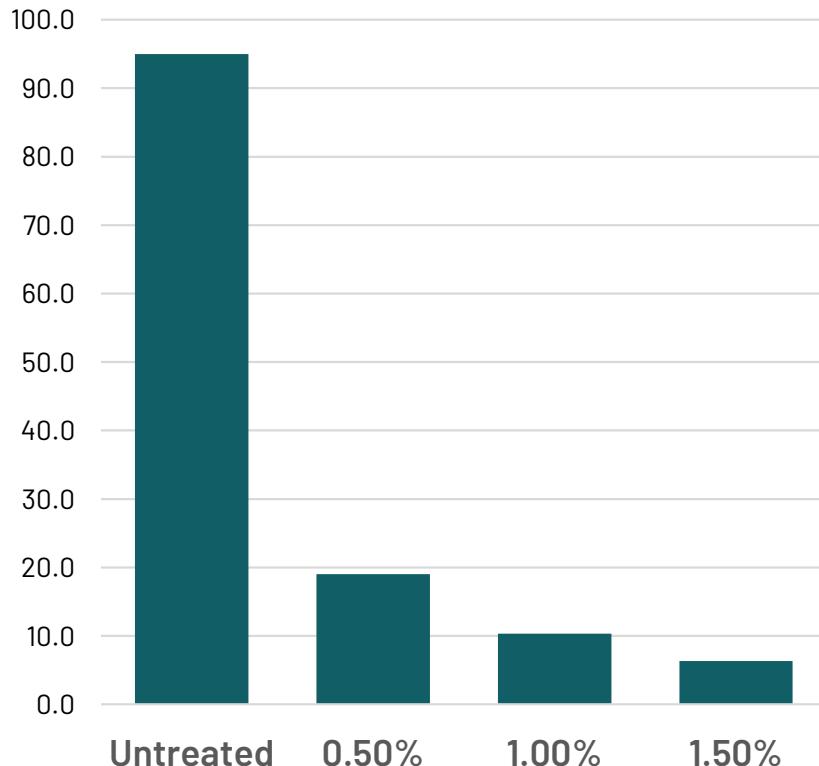

Naturally sustainable
solutions using harvested
renewable cellulose for
dusted products

- Improved safety
- Significantly reduce inhalable dust exposure
- Improved job site cleanliness
- Reduce damage to nearby equipment
- Reduced cleanup time
- Improved yields

TOTAL DUST VALUE IMPROVEMENT

A customer's mortar mix treated with GC10-70LD. Dust value tested on Palas® DustView Analyzer

FUNCTIONAL

- Reduces dust up to 90%
- Flexible loading levels
- Works with cement or gypsum
- Zero to low impact on physical properties
- Nominal cost impacts

AREAS OF APPLICATION

- Mortars
- Grouts
- Stucco
- Plaster
- Thin sets
- Dust suppression
